THE METALLIC PAINT, produced by

the PATENT ALKALI COMPANY, has been extensively used for several years on farm buildings, iron bridges, roofs, and railings, shipping, &c., and it is universally admitted that it covers a greater surface than any other pigment, and stands far better on wood, iron, Aberthaw lime, and Roman cement, than the ordinary paints. Fine black, 25l. per ton; rich purple brown, 20l. per ton.

PATENT WHITE ZINC PAINT.—

JOHN WARNER and SONS are prepared to supply this paint to builders, painters, and plumbers, on wholesale terms. It is free from all poisonous qualities; it is unaffected by sea-water, sulphuretted hydrogen, or any of the gases; and preserves its original colour where white lead paint will not.—Prospectuses to be had at J. Warner and Sons', 8, Crescent, Jewin-st., London.

PURE PATENT WHITE ZINC PAINT

of the VIEILLE MONTAGNE ZINC MINING COMPANY.—This Company having become Proprietors of all rights and patents of the late Patent White Zinc Company in France and Belgium, is prepared to FURNISH, on a large scale, the WHITE OXIDE of ZINC in a PURE STATE, and of a quality which can only be manufactured from the Zinc from their Mines in Belgium. The Patent White Zinc Paint is superior in every respect to white lead paint. It is entirely free from all poisonous influences, and is unaffected by sea-water, sulphuretted hydrogen, or any gases; besides, it preserves its original colour, which white lead paint does not. White zinc paint causes none of those ravages invariably engendered by white lead upon the human frame; neither Painters' Cholic, nor Paralysis, &c. &c., to which dangerous complaints the workmen who manufacture and use it are subject, and to which persons who inhabit newly painted apartments are also liable. A spurious article having been introduced in the market under the name of White Zinc Paint, the Public is cautioned against it, because, when adulterated, it becomes a very inferior paint, instead of a first rate one.—For further particulars and Prospectuses, apply to Mr. H. F. SCHMOLL, general agent for England and Scotland, at the Company's Offices, 12, Manchester-buildings, Westminster-bridge, London.

HUBBUCK'S PATENT WHITE ZINC

PAINT.—ANNOUNCEMENT.

For MARINE USES, it possesses the following advantages:—It is whiter than any other Paint, and retains this whiteness for years, unaffected by bilge-water, or noxious vapours from cargo. The White Paint in the hold of a ship, after discharging a sugar cargo, is found to be as white as the year before, when newly painted. Under these and other circumstances, when every other paint hitherto known and tried has failed, the "White Zinc Paint" has preserved the freshness of its colour. Moreover, by virtue of its galvanic action on iron, it enters the pores, and forms an amalgam of the two metals, which protects the iron from rust, decay, or incrustation.

For the GENERAL PURPOSES of the decorative painter, the "White Zinc Paint" has been found unparalleled in whiteness, clearness of colour, durability, and beauty of texture. It becomes so hard as to admit of polishing equal to the finest coach panelling.

For SANITARY PURPOSES the "White Zinc Paint" is valuable, not only from its being totally free from every ingredient injurious to health, but from its combining chemical qualities which render it a powerful corrective where contagious diseases have prevailed; furniture or buildings painted with it are at once disinfected. Paralysis and Painters' Cholic are avoided by its use, as well as similar results to the occupants of newly painted rooms. Apartments may be immediately occupied, without injury to the health of children or the most delicate constitution. It becomes cheaper than common paint, from its spreading over a much larger surface. 2 cwt. of this paint covers as much as is usually covered by 3 cwt. of white lead. Each cask is stamped with the name "Hubbuck—London,—Patent," as the style of the Manufacturers. A circular with full particulars may be had of the manufacturers, THOMAS HUBBUCK and SON, Colour Works, opposite the London Dock.

STEAM ENGINES on WHEELS.—TO

BE LET or SOLD, simple, strong, and powerful PORTABLE STEAM ENGINES, on wheels, which may be purchased or rented for any period. They are suitable for pumping, sawing, winding, or other purposes.—Apply to MEDWIN and HALL, Engineers, 92, Blackfriars-road, where they may be seen at work.

LAWRENCE and CO., 55, Parliament-

street, Westminster, and 10, York-place, Lambeth, Manufacturers and Dealers in Zinc, &c.:—Funnels, 10s.; Chimney Shafts, 1s. per foot; various sorts of chimney-cowls and tops, perforated zinc in sheets, 3½d. per foot; rain pipe, 3 in., 4d. per foot; best tube, 3½d. per lb. Baths, windows, skylights, drawn bar, &c. &c. to order. Zinc or brass plates supplied or engraved in best manner. Spelter and sheet zinc and nails at lowest market prices.

ZINC, from the VIEILLE MONTAGNE

MINING COMPANY, is the purest known, free from alloy of iron, lead, or sulphur. It is supplied in spelter for brass founders, &c., and in sheets for ship-sheathing and roofings of all kinds, and nails of all dimensions. It may be had at the following Agents', who have always a large stock in hand:

Birmingham—Mr. John Barwell.
Liverpool—Messrs. E. Zwilchenbart and Co.
Manchester—Messrs. Rich. Johnson and Brother.

Zinc from 20 to 24 oz. per square foot is generally used for roofings, which come at least one-third cheaper than slate coverings, and the ship sheathing, which lasts from five to six years, comes two-thirds cheaper than copper or yellow metal. And if the zinc coverings are made of the Vieille Montagne Zinc, and under the superintendence of Mr. FREDERICK BROWN, the surveyor of the Company (for which no charge whatever is made), a guarantee will be given of its durability.—For further particulars and prices apply to Mr. H. F. SCHMOLL, General Agent for England, at the Company's Offices, No. 12, Manchester-buildings, Westminster-bridge, London.
